South's double is hard to interpret. Normally one would assume it was a penalty double, since N has already shown his long suit.

But E/W have L10+♠, which argues against penalty and for a take-out style double. IE a shortage in ♥ and support for the other suits but not ♦.

Divide yourselves into pairs and then into tables. Fill in table slips.

NS have the pair number of their table.

EW have the pair number of their table plus 6.

N has his back to the screen.

When you have played a hand, pass it to the next numbered table in sequence. The highest numbered table passes to table 1.

And one last thing – **as part of the learning process** – I would like the **partner** of whoever has just bid to take whatever action is **standardly required** (announcing 1NT as 12-14 points, ALERTing a conventional bid, ...) – **AND ALSO** to give a brief **description** to the other three players on what the bid means.

Any questions?
