Week 10 More Losing Trick Count

Steve Bailey

U3A Intermediate Bridge 2014-15

Week 10 ... of the week

Procedure of the week:

Do not return your bidding cards to the bidding box until **after** the opening lead has been turned the right way up.

Hint of the week:

If you don't write the contract down on a record card, raise the relevant bidding card at an angle out of the box after you return the cards to the box.

Week 10 More Losing Trick Count

From last time – *This page is what you want to learn and use.*

Only apply the **Losing Trick Count** in a suit contract after a **FIT**.

Less useful with a balanced hand

In each suit, work out how many of the top three tricks you will fail to win - missing from “ACE, KING, QUEEN”.

Add the four suits together.

- L0 gets 0LT Nothing to lose.
- L1 gets a maximum of 1LT Do you have the “Ace”?
- L2 gets a maximum of 2LT Do you have “Ace” and / or “King”?

Opener at 1-level is assumed to have 7LT.

Responder is assumed to have 9LT at the 1-level, 8LT at the 2-level.

Subtract total for partnership from 18 for a recommendation.

If the Q is with E, a finesse of the ♥J will work. Preserve ♥A to allow this.

Trick 1: ♦K, ♦6, ♦7, ♦8.

E plays ♦7, which W sees as a low card. As EW are playing reverse attitude, this is saying “I have third round control – I have the Ace”.

W work out 7 is low from his
 ♦ K Q 5 4 3 2.

Trick 2: W follows with ♦Q which S trumps (low).

♦Q, ♦9, ♦10, ♥2.

To allow the ♥J finesse, S leads a low trump to N's ♥K at trick 3. Hopefully drawing 2 trumps, but in this case only one and seeing W is void.

Therefore the finesse is needed **and is guaranteed to work.**

So at trick 4 N leads a low heart, drawing the ♥10, to S's ♥J.

And with Trick 5 leads ♥A drawing the final trump, ♥Q.

Week 10 Play

Play

Divide yourselves into pairs and then into tables.

This week I do not plan to ask you to move, in future weeks we shall.

NS have the pair number of their table.

EW have the pair number of their table plus 6.

When you have played a hand, pass it to the next numbered table in sequence. The highest numbered table passes to table 1.

And one last thing – **as part of the learning process** – I would like the partner of whoever has just bid to take whatever action is **standardly required** (announcing 1NT to be 12-14 points, ALERTing a conventional bid, ...) – **AND ALSO** to give a brief **description** to the other three players on what the bid means.

Any questions?

Tea & coffee.

Red = Group result from travellers.

A lower case n e s w suffix is used to denote declarer.

Scores are all given from NS perspective.

+ve is better for NS, -ve for EW.

Hand sources:

SLM = A Robson: Slam

BHE = B Magee: Better Hand Evaluation (2 hands) + adjusted deal

Each hand may be rotated with respect to the books. The hand positions can be determined by locating the A♠ or similar.
